

Vinyl Pipe Wrap Tape

Industrial Grade

Soft PVC pipe wrap/corrosion prevention tapes are coated on SPVC films with an aggressive rubber-based pressure sensitive adhesive, in 10 mil (x10) and 20 mil (x20) thickness, black color and matte finish, compliant to IAPMO-UPC in either blank or printed with UPC logo.

Vinyl Pipe Wrap Tape are widely used for corrosion prevention, protection and insulation of metal pipeline, plumbing, electrical conduit in housing, irrigation, utility and contractor industries. These products are conformable and resistant to UV, moisture, oil, acids and alkalis, and good for indoor and outdoor, above or underground applications. Their thick backings also provide good abrasion resistance and electrical insulation.

Item	Backing (carrier)	Adhesive Type	Thickness (mil)	Adhesion (oz./inch)	Tensile Strength (lbs./inch)	Elongation (% at break)	Application Temp. (°F)
110, 210, 410	SPVC	Rubber	10	20	25	200	140
220	SPVC	Rubber	20	20	40	250	140
