| Features and Benefits | • Panel features very sturdy construction with thick rolled-edge steel plates.<br>• Unique, patented slide label system provides a flush front panel face.<br>• Lightweight aluminum rear cable manager comes with the panel and provides for a neat and organized installation using Grip Ties |
| Product Description | The HellermannTyton Category 5e AlphaSnap line of patch panels is the ultimate in patch panel technology. The panels are equipped with individual, fully modular printed circuit boards (PCBs). Rather than replace the entire panel, each port can be individually removed and replaced if damaged during installation. AlphaSnap panel is equipped with a rear cable manager. ETL tested and approved for Category 5e Channel performance. |
| Performance Category | Category 5E (Class D) |
| Port count | 48 |
| Sub Category | Panel |
