WS markers are the perfect match for W series-connectors. Thanks to their system compatibility, the WS tags can also be used with the I-series and the Z-series. The large marking surfaces do not only permit long character strings but also multi-line text.

WS markers are ideal for labels with long, customised character strings. Thanks to the proven MultiCard format, printing with laser printer , PrintJet ADVANCED , plotter or MC-Mobilo is possible.

- Can be fitted in strips or singly
- Markers in proven MultiCard format
