

High Quality and Dependability

ITW Ramset powder loads and tools match tolerances to provide optimum power within recognized national velocity standards. Available in color-coded 10-load discs, 10-load strips, and 100-load boxes.

Caution Always test-fasten with the lowest power level for your tool. If more power is necessary, use the next highest power level until proper level and fastening is achieved. Refer to operator's manual for more specific details. Observe all safety reminders. Tool operators must be trained and qualified as required by federal law. Failure to use properly can result in serious injury or death to users or bystanders.

Advantages Powder Guide

Power level is designated by the load level number marked on each box; also by the color of the box and each powder load. As the number increases, the power level increases.

SELECTION CHARTS

RAMSET LOADS FOR LOW VELOCITY TOOLS

TOOL MODEL	PART NUMBER	POWER LEVEL	COLOR	CALIBER/TYPE	PACKAGING
D60, D45A and AutoFast	2D60	2	Brown	.25 Disc	all 10 disc 10 discs/box
