

Set Screw EMT to Set Screw EMT - Zinc - Inside Corner Elbow

Images

Application

Bridgeport's Patent-Pending ICE Series Inside Corner Elbow is used to connect two lengths of 1/2" EMT to form a 90° change of direction. The Inside corner cover allows for installation in locations where the side or back of the elbow is inaccessible. The cover easily removes using a screwdriver to pop it off, and then it presses back into place by hand. Cover should only be removed to guide conductors through the 90 degree bend, and then it should be replaced. Cover must be in place when pulling conductors through the connector, as the cover provides a smooth pulling surface for the conductors to glide against.

Product Information

Material: Zinc Die Cast, Zinc Plated Steel
Cover
Finish: Ball Burnished

Certifications & Codes:

Federal Specification Number: A-A-50553
NEMA Standard: FB-1
UL File Number: cETLus
UL Standard: UL-514B
UNSPSC: 39121464

Catalog ID: ICE-50

UPC Number: 78174709981
